

Appendix 4 - Comments on Open Spaces from the “Have Your Say Fun Day”

“Open spaces are essential”

“Crucial to keep village identity to instil appreciation of nature and for general peace”

“We already have fewer amenities than we need (Drs, dentists, employment) and it is essential to protect residents from yet more noise and development, loss of countryside and traffic”

“Police on the beat if possible”

“Footpaths / play areas / spaces between BBH and other communities to protect village I.D.”

“Are there any pieces of land that should be registered as open spaces and thus preserved for the community.”

“Open spaces are essential for villagers and town folk alike. Open Spaces must not be destroyed. Once gone, gone forever.”

“Keep as much green as possible.”

“Many as possible to be kept and development carefully monitored to include green field spaces.”

“We need to keep as much green field spaces as we can all over Sussex.”

“Please make sure any green spaces keep vehicles off and don’t become places people park on.”

“We have just moved back to the “VILLAGE”. Don’t spoil it! Not a suburb of Horsham but a small village and friendly!!! LOVE IT.”

“Old Wickhurst Lane is a private road with walking access only – I would like to see cyclists prevented from using this area, causing damage and generally trespassing. It is quite a worry to elderly members of my family.”
